

Blanco Management Console – Cloud

Cloud-Based Point of Control for Data Erasure Verification and Reporting

Why Blanco

Blanco is the industry standard in data erasure and mobile device diagnostics. Blanco data erasure solutions provide thousands of organizations with the tools they need to add an additional layer of security to their endpoint security policies through secure erasure of IT assets. All erasures are verified and certified through a tamper-proof audit trail.

Blanco data erasure solutions have been tested, certified, approved and recommended by 18 governing bodies and leading organizations around the world. No other data erasure software can boast this level of compliance with the rigorous requirements set by government agencies, legal authorities and independent testing laboratories.

Blanco Management Console gives internal users, administrators and support staff data erasure management access in the cloud to ensure full compliance for data sanitization and enhanced endpoint security.

With Blanco Management Console, users can view or modify erasure licenses and receive extensive tamper-proof, auditable reports. The solution requires no additional internal infrastructure or resources for deployment and is easily accessible via a secure portal.

Key Benefits

Safely Monitor Data Erasure Activities and Report Precisely on Results

- Give managers insight into staff performance with an operator throughput widget that can be filtered by product, group or date range.
- Store, share or search for reports in a tamper-proof environment to prove you've met data protection regulations local, national, or global, including PCI DSS, HIPAA, FedRAMP and GDPR.

Strengthen Internal Processes and Increase Asset Value

- Eliminate the need for additional internal IT resources and infrastructure, while increasing asset value and reducing asset management costs.
- Integrate data erasure into your existing asset management infrastructure in order to automate workflows and simplify compliance.

Prove Data Sanitization Across the Entire Data Lifecycle

- Easily scale data protection policies across physical, logical and virtual environments and optimize operations with erasure statistics and business intelligence dashboards.
- Centralize control and report on all erasure activities with 100% certified and tamper-proof reports.

Technical Specifications

CENTRALIZED REPORT MANAGEMENT		ACCESS CONTROL & USER MANAGEMENT	
<ul style="list-style-type: none"> • Complete cloud-hosted service for managing the data erasure process • Online access to a central database with minimum effort in report distribution • Erasure statistics drill down and identify performance issues amongst all assets • Full compatibility with all Blanco Eraser software • Full hardware and erasure details available 		<ul style="list-style-type: none"> • Easy user management and distribution of user rights globally • Groups and subgroups can also be created for report sharing and license assignment • Control use of data erasure software and operator rights using Blanco's premium-level technology • Operator throughput widget allows greater insight into staff performance 	
REPORTING	AUDITING	LANGUAGE SUPPORT	
<ul style="list-style-type: none"> • Comprehensive reports include details such as device name and model, IMEI code, and storage capacity • Reports can be exported as PDF, XML and CSV • Custom report views available • Quickly filter reports with "quick search" • Custom fields (such as customer name and asset ID) can be added to reports • Backup incoming reports directly to local file system 	<ul style="list-style-type: none"> • User-friendly report browsing and filtering features • Comprehensive statistics available • Simple report distribution options • Full transparency of both diagnostics and erasure processes ensures a gapless audit trail 	<ul style="list-style-type: none"> • English • French • German • Japanese • Portuguese • Chinese • Spanish <p>Please ask your Blanco sales representative for details.</p>
