

Blanco is the leading provider of data erasure software and mobile diagnostics solutions. Blanco data erasure solutions have been tested, certified, approved and recommended by 18 governing bodies and leading organizations around the world. No other data erasure software can boast this level of compliance with the rigorous requirements set by government agencies, legal authorities and independent testing laboratories.

100% Tamper-Proof Audit Trail

15+ Global Certifications, Approvals & Recommendations

100% Compliance With Regulatory Standards

Global Certifications

NYCE

Blanco's data erasure software is approved and certified in accordance with Mexican standards for development. As a result, Blanco's methods of erasure have been evaluated and deemed to be in compliance with the criteria established by the INAI Guide to secure data deletion.

Netherlands National Communication Security Agency

The Dutch National Signals Security Bureau (NBV), part of the General Intelligence and Security Service of the Netherlands that promotes the protection of government information have approved Blanco 5 for erasing HDDs and SSDs.

National Cyber Security Centre (NCSC)

Blanco is certified by the National Cyber Security Centre (NCSC), the UK Government's National Technical Authority for Information Assurance. The Blanco product exceeded the highest security specifications detailed in the HMG Infosec Standard No: 5.

The Federal Service for Technical and Export Control (FSTEC)

The Federal Service for Technical and Export Control (FSTEC) of Russia implements national policy for information security and protection of sensitive information. Blanco has been awarded a certificate from FSTEC confirming the software's compliance with a range of technical requirements, including the validation of its security functions.

Refurbished (Reuse) & Recycle Information Technology Equipment Association*

Blanco is certified by the Refurbished (Reuse) & Recycle Information Technology Equipment Association in Japan.

BSI - Federal Office for Information Security*

Blanco is certified by the Federal Office for Information Security (BSI), also known as the German Information Security Agency (GISA). The approved version fulfills the stringent security requirements of the BSI guidelines for classified documents and has been audited by the TÜV SÜD.

Certified for Common Criteria (ISO 15408)

Common Criteria is an internationally recognized independent security certification recognized by governments in 26 countries across Europe, Australasia, Asia and North America. Blanco 5 and Blanco File Eraser are Common Criteria certified.

Swedish Armed Forces

Blanco is certified by the Swedish Armed Forces, providing our Scandinavian and Nordic customers with an absolute line of defense against security breaches.

Central Information Systems Security Division

Blanco is certified and recommended by the DCSSI (Central Information Systems Security Division under the authority of the French General Secretary for National Defense). Blanco is the only certified data erasure solution in France.

The Polish Internal Security Agency

The ABW, revered as the Polish special service, is responsible for protection of the country's internal security and its constitutional order. Blanco is the only data erasure software certified by Polish authorities.

Global Approvals and Recommendations

Asset Disposal & Information Security Alliance (ADISA)

The ADISA audit process is multi-layered and includes full audits, unannounced operational audits and forensic audits. Blancco's SSD Erasure Method passed both Level I (attack by a threat adversary using standard COTS forensic tools and techniques) and Level II (attack by a threat adversary using standard intrusive/destructive testing tools designed to read data directly off a chip) testing. Additionally, Blancco Mobile Device Eraser has been certified to sanitize data on mobile devices against ADISA risk Levels I and II.

The Norwegian National Security Authority

The Norwegian National Security Authority (NSM) approved Blancco to securely erase hard disks intended for declassification and release for commercial use. Blancco software is approved to erase at both Restricted and Confidential levels.

The Defence INFOSEC Product Co-Operation Group of the UK**

The Defence INFOSEC Product Co-Operation Group (DIPCOG) has approved the Blancco HMG, File, LUN and Mobile solutions for use in the Ministry of Defense and UK Government departments. Due to the high standards set forth by the Ministry of Defense, special security specifications were set based on CESG's standards. Blancco currently holds the highest number of DIPCOG approvals of any data erasure software company in the UK, and offers the only DIPCOG approved products for selective data erasure, mobile erasure and LUN erasure. Additionally, the UK Ministry of Defense highly recommends our solutions.

TÜV Saarland

TÜV Saarland officially endorsed Blancco's erasure product based on the positive results found. TÜV Saarland found that Blancco's software provides a reliable and effective mechanism to erase private data from mobile devices, removable media, LUNs, drives, as well as erases files and folders.

The Finnish Communications Regulatory Authority

The Finnish Communications Regulatory Authority (FICORA) has approved Blancco erasure software for erasing data from hard drives and Solid State Drives at security classification levels I-IV.

NATO*

Blancco's data erasure products are recommended by NATO and included in the prestigious NATO Information Assurance Product Catalogue (NIAPC). Blancco worked closely with NATO to achieve this recommendation and inclusion in NIAPC, which is provided to NATO military partners and Partnership for Peace program members.

Third-Party Endorsements

Kroll Ontrack

OnTrack, the global experts in data recovery, have officially recommended and endorsed Blancco Drive Eraser 6 as the best way to successfully erase data from HDDs and SSDs in servers, laptops and more.

* Certification update in progress

** UDPATE: The DipCog group has been disbanded and will be re-branded as DyCips. Once this new authority is up and running we will be able to move our existing certifications across and obtain new certifications on our new products. Our DipCog accreditation is still valid at this time, and Blancco continues to monitor this situation.
