

Blanco Toolkit

Easy, Light and Portable Solution
for Your On-The-Go Erasure Needs

Why Blanco

As the de facto standard in data erasure, Blanco provides thousands of organizations with an absolute line of defense against costly security breaches, as well as verification of regulatory compliance through a 100% tamper-proof audit trail. Our data erasure solutions have been tested, certified, approved and recommended by 18 governing bodies around the world. No other security firm can boast this level of compliance with the most rigorous requirements set by government agencies, legal authorities and independent testing laboratories.

Blanco Toolkit is a portable and standalone erasure solution designed to perform both onsite and offsite data erasure.

Blanco Toolkit does not require a network or Internet connection. Its carbon fiber-style casing gives it a smart, professional look and feel, designed to perform both onsite and offsite data erasure.

Key Benefits

Ensure Regulatory Compliance Anytime, Anywhere

- Carry out both onsite and offsite erasure with the easily portable toolkit, which functions as a standalone erasure tool, with no Internet or network connection required.

Report on Best Practices and Create Seamless Audit Trail

- Perform due diligence on necessary data erasure requirements and report on best practices to increase stakeholder buy-in.
- Verify proof of compliance among national and international regulatory agencies, including ISO 27001 and ISO 27040 with a tamper-proof audit trail.

Streamline Workflows and Increase Productivity

- Simplify and refine internal workflows, processes and policies and strengthen knowledge and awareness of data security within the business.
- Validate rationale for resource planning and reduce overall costs of asset management.
- Centralize control and reporting of all erasure activities with 100% certified and tamper-proof reports.
